

SEED KEYWORDS:

THE STARTING POINT OF SEO

WHAT ARE SEED KEYWORDS?

Seed keywords are broad terms that define a topic or niche.

Examples:

- SEO
- Content Marketing
- Link Building
- Technical SEO
- Keyword Research

Think of them as the **starting point** of keyword research.

DO SEED KEYWORDS PERFORM BETTER?

Not usually.

Seed keywords often have:

- Higher search volume
- Higher competition
- Broader intent

WHY SEED KEYWORDS MATTER

Discover keyword opportunities

Build topic clusters

Plan website architecture

Understand your niche

THE BIG INSIGHT

In SEO, the trunk doesn't grow the tree alone.

The branches do.

Seed keywords start the journey. Long-tail keywords, questions, FAQs, examples, and supporting content drive traffic and topical authority.
